Training
Consultancy

EASE FINANCING

Rental
Extended warranty
Financial solutions

**THERE IS NO BETTER TIME
THAN UPTIME!**

INCREASE UPTIME

Our aim is to optimise the uptime of your vessels and equipment, ensuring optimum levels of productivity and reduced total costs of ownership. We support you worldwide to keep your vessels and equipment up and running under all operational conditions. We help increase your uptime by providing maintenance support, repairs and docking management and parts and logistics.

MAINTENANCE SUPPORT

Maintenance support provides you with an IHC Service Engineer, who acts as your technical assistant and point of contact for technical advice and (planned) maintenance support.

REPAIRS & DOCKING MANAGEMENT

Repairs, class inspections, intake surveys and docking management are performed by our qualified specialists with extensive OEM knowledge and expertise in life-cycle solutions.

PARTS & LOGISTICS

We supply spare parts and the required logistics. Spare part contracts provide you with guaranteed availability and delivery times to optimise your supply chain and help prevent unnecessary downtime.

IMPROVE PERFORMANCE

Wherever you operate, we are there to support you in improving the performance of your vessels and equipment. Your operations become more efficient, while the total costs of ownership are reduced. We can help you to improve performance by providing renovations and engineering, training and consultancy.

RENOVATIONS & ENGINEERING

Due to economic considerations, continuing compliance to regulations and changing operational requirements, an upgrade of your equipment may be necessary. We will improve the operational performance of your vessel, while reducing emissions and the total operational or maintenance costs.

TRAINING

To further enhance the skills and knowledge needed to efficiently operate and maintain your vessel, we provide project-specific, operational and maintenance training.

CONSULTANCY

We support you during the preparation, operation and optimisation phase of your dredging, mining or offshore project to achieve the best results for your operation.

CHALLENGED TO OUTPERFORM

INVESTMENTS MADE EASY

EASE FINANCING

We understand that investments in vessels and equipment may be challenging. Investing in services is just as important to keep your vessels and equipment in optimum condition and extend their lifetime. We can ease financing for you with our rental services, extended warranty and financial solutions.

RENTAL

Execute your projects cost-effectively and keep your equipment inventory at a minimum. We offer short- and medium-term rental of modular and flexible equipment and vessels for operation in the dredging, mining and offshore markets.

EXTENDED WARRANTY

Extend your standard warranty period of 12 months by an additional 6, 12 or 18 months in order to benefit longer from warranty and support services.

FINANCIAL SOLUTIONS

We offer you an extensive range of financial solutions for our products and services. This includes attractive payment terms, supplier credits, commercial financing, rental and leasing options as well as (export credit agency supported) buyers' credits.

WHY US?

Wherever you are, we are there to help you achieve a successful operation. From basic advice to advanced fleet management, we are there to relieve you and let you focus on your operation. Our in-house OEM knowledge and expertise is the backbone of our organisation and guarantees you high-quality and reliable services. Due to our global network of qualified specialists, we are able to get on site quickly and provide you with fast response times. Our services can be translated into a customised service package to meet your requirements and help you achieve your goal!
