

# **IHC HYTECH** **NEWSFLASH**

**DECEMBER 2017 | E18**

An undisclosed customer in South East Asia has awarded IHC Hytech with an order for a HYOT type six person Hyperbaric Oxygen Treatment Chamber. The extensive experience and knowledge in the field of HBO chambers was one of the deciding factors to trust the order to IHC Hytech.

The HYOT will be handed over in Q3 2018 to the end user.

Our specialists will install the chamber, commission and train the staff involved with the system.

For more information, please contact our sales department.
