

PILOT PLANTS BUILDING PRECEDENCE

All rights reserved. Reproduction in any form or by any means is not allowed, without prior permission in writing from IHC Robbins.

IHC Robbins has developed considerable experience in the design, construction and operation of custom built pilot plants, demonstration plants and pilot scale equipment over the years.

Services offered include:

- demonstration plants up to 100 tonnes per hour
- the design of fixed or mobile pilot plants from 2-50 tonnes per hour
- full construction and commissioning capability
- modular, fixed, mobile or containerised plants for export around the world

Offering a comprehensive range of project services, IHC Robbins can provide expertise in a wide spectrum of the clients' heavy mineral mining needs:

- from flowsheet development and feasibility studies
- to full EPC turn-key project management services.

The company utilises the latest management systems and computer technologies in delivering these services, ensuring optimal standards in every project.

Through its continued delivery of exceptional and innovative solutions, IHC Robbins has established itself in an excellent position in its preferred field of mineral sands consultancy.

PROMINENCE

IHC Robbins has been prominent in promoting its mining and processing expertise, consulting on works for major mineral sand producers.

INTERNATIONAL PRESENCE

With its highly capable team, the company has carried out project works for most of the major mineral sand producers in Australia and overseas including:

- India,
- South Korea,
- South Africa,
- North and South America,
- Canada and
- Russia.
