Royal IHC increases its guarantee facilities to c. € 430 million and extends its financing arrangement by 2 years

Royal IHC has consolidated the recent years of strategic realignment during 2025 and laid the basis for further growth in its order book and revenues, and is on track towards net profitability, as shown in our annual report. These improvements are reflected in the increased financing facilities available to Royal IHC over the coming years.

Royal IHC is therefore pleased to announce that we have signed an agreement which increases its ECA covered guarantee facility and extends the maturity of the facilities agreement by 2 years to June 2030. This agreement became effective on 6 July 2026. Earlier, in May 2026, Royal IHC signed a separate ECA covered facility agreement for an additional guarantee line, related to the construction of 2 trailing suction hopper dredger vessels, to be constructed in Vietnam.

With these increases in place, Royal IHC has access to c. € 430 million in guarantee facilities.
